Terminal markers
WS 15/5 MC NEUTRAL

WS markers are the perfect match for the connectors of the W series. But thanks to their system compatibility the WS tags can also be used with the I series and the Z series. The large areas for printing permit not only long character strings but also multiple lines.

WS markers are ideal for labels with long, bespoke character strings. The tried-and-tested MultiCard format means that printing can be carried out with **laser** printers, **PrintJet**, **plotters** or the **MC-Mobilo.**

- Can be fitted in strips or singly
- Markers in proven multicard format

General ordering data
